Clinical Study Concludes Electrostatic Charge in Spacers Does Not Affect Bronchodilating Response to Salbutamol

Relation Between Spacer Type and Bronchodilating Response to Salbutamol

“We conclude that electrostatic charge (ESC) on plastic spacers does not decrease the in vivo efficacy of bronchodilator therapy in asthmatic children.”

– Dompeling E, et al. Randomised controlled study of clinical efficacy of spacer therapy in asthma with regard to electrostatic charge. Arch Dis Child 2001;84:178-182.
